

Extra in the ordinary.

BNC020

With any Braun product, the first and most important consideration is how that product can provide the 'extra in the ordinary' for the user and make what is an everyday task as efficient and intuitive as possible.

Introducing the new Braun connected clock. The Braun clock smartphone application allows users an unprecedented level of customisation on many of its features via Bluetooth 4.0 connectivity. In addition, incorporated into the unique design of the connected clock are two USB charging ports, allowing users to charge their portable devices.

- iOS and Android compatible
- Remote customisation via Bluetooth 4.0 connectivity
- Automatic time and date synchronisation
- Set multiple alarms, on specific days
- Customisation of alarm options, including tones, volumes and snooze
- 2 x USB charging ports
- Superior clarity, VA LCD clock display with 4 levels of brightness
